

Little Miracles

South Holland

ABOUT US

Little Miracles is a charity that supports families that have children with additional needs, disabilities and life limiting conditions. Just like everyone else these children need a place to play, laugh and create friendships — Little Miracles provides this whilst the families are able to access the advice, support and care that they deserve.

In the UK, there are 800,000 disabled children under the age of 16 — this is approximately one child in every twenty yet the majority of families that we work with report feeling like they are alone in their journey. Little Miracles exists to reduce this isolation and to ensure that families get the support that they need in order to support their families fully. Our activities and Family Support Workers provide a lifeline to the families and their children with the varied support that we are able to offer. We support the whole family including parents, carers, the child with additional needs as well as the siblings and any family can receive support even before they receive the formal diagnosis.
